

INNOVI SALES

Representing innovative suppliers to medical device manufacturers throughout the West

(925) 918-0277

ArcRev – Laser Machining, Welding and Processing of Hypo Tubes to demanding tolerances. Located in San Carlos; they are your local source for short lead times at compelling prices. ArcRev specializes in quality cutting and processing of metals.

Hart Enterprises, Inc.

Hart Enterprises – Manufacturing of standard and custom hypodermic Needles, Cannulas, small Diameter Tube Fabrication, Components and Assembly of Medical Devices. Fabrication including: Ground Sharps, Stylets, Coaxial, Needles and Trocars. Supplied Sterile or bulk non sterile.

Phillips Precision Medcraft – Custom manufacturers of Implants, Instruments and Sterilization Case and Tray Systems to the Orthopaedic marketplace. Precision machining for all your medical device components.

Preferred Precision & Tool and Die – Specializing in intricate, tight tolerance machined and stamped components utilizing: Ti, SS, CoCr, PEEK, Ultem, Delrin and other. CNC Milling and Turning, 9-axis screw machines, EDM wire & sinker, Heat Treating, Welding, Honing and Stamping (22-300 ton presses).

INNOVI SALES

*Representing innovative suppliers to medical device
manufacturers throughout the West*

Innovi Sales Suppliers' Capabilities Include:

EDM Wire & Sinker
Finishing – Polishing, Glass Bead Blasting
Grinding – Wire, Rod & Tubing – Centerless & Precision
Hypo Tube – Cutting, Forming, Bending & Welding
Implant Machining
Laser Cutting – Tubes, Flats: Stents, Spiral Cut Hypo Tubes, Structural Heart
Laser Welding & Marking
Machining – precision tolerances – prototypes to volume
Offshore Sourcing – various capabilities w/ US stocking locations (FOB)
Orthopedic Instruments – Customer designed, complex machined- assembled
Needle Grinding & Sharps
Milling Conventional to 5 axis
Sharpening
Stainless Steel Hypo Tube & Rod
Stamping
Stent Cutting
Swiss Turning – 9 Axis machining
Thread Whirling
Trocars
